H. C. Guyton, wagonmaker, says: "I was having trouble with my kidneys some time ago and had to get up at night to pass the secretions. I had a lame back and every time I stooped, a pain shot through me. Doan's Kidney Pills did me more good than any other medicine I ever used. The kidney secretions became natural; the lameness and pains left my back and I was no longer bothered by having to get up at night. I give Doan's Kidney Pills all the credit for making me well."

Here is a message to suffering women, from Mrs. Kathryn Edwards, of R. F. D. 4, Washington Court House, Ohio. "I am glad to tell, and have told many women, what I suffered before I knew of Cardui and the great benefit to be derived from this remedy. A few years ago I became practically helpless."

**Cedar Creek to be Bridged.**

**'Twas Some Rain.**

The heaviest rain we have had here in many a year fell here between four and five o'clock last Friday afternoon. For nearly an hour the rain fell in almost cloudburst volume, beating itself into misty spray upon the roofs and ground. The gutters and streets became rushing torrents and Cedar Creek rose to the highwater record mark in a short time. The culvert which carries the waters of Saddlebag under High street, was too small to take care of the flood that came down that hollow, so the water backed up and formed a lake and then poured over the street to the depth of a foot or more, with a width of a hundred feet or more. The flood filled the cellar of the E. M. Bugg Merc. Co. store and rose over the floor of the building. It also invaded the stores of A. B. Sparks, Wm. Bars and J. H. Casey. At other points the street culverts were of insufficient capacity to carry off the waters and the streets were washed out and sidewalks covered with mud and trash. A continuous play of lightning and crashes of thunder were accompanying features of the storm. The flood broke down the concrete dam at Townsend's pond for about half its length.

#### W. S. S. Red Rolling Meeting.

The meeting held in Potosi Friday afternoon, in observance of War Savings Stamp Day, was a happy manifestation of the patriotic sentiment of the people of the community.

Few, if any, got themselves on the black list of non-patriots by remaining away. After a brief address by Chairman S. G. Nipper of the W. S. S. committee stating the object of the meeting, subscriptions were called for, and while the amount pledged did not quite reach the quota assigned to this school district, the result was nevertheless most satisfactory, the total, including previous sales, reaching \$26,400. The full quota of district will undoubtedly be reached in a short time. The individual subscriptions at this meeting ranged from \$1.00—of which there were several—down to 50c.

The indications are that more than one hundred thousand dollars were pledged in the county Friday to the War Stamp fund, the complete returns not being in yet. Among those who have subscribed \$1.00 each are—H. C. Guyton, H. E. Blount, A. Najim, W. H. Bust, Mrs. E. F. Cordia, Mrs. Wood, Will Casey, Howard Higginbotham, Potosi; Thelma Smith, Caledonia; Frank Tannison, J. G. Walton, John Hanson, Jas. W. Cole, Belgrade. Those subscribing 50c or more, but under \$1.00, are—Dr. H. J. Blount, Wm. Pratt, James Curtis, E. M. Dearing, J. F. Evans, J. W. Towl, J. R. Boyer, Aquilla Cole, Potosi; W. W. Gibson, W. J. Dent, Caledonia; A. E. Stocking, Fletcher; E. L. Casey, Undine; G. E. Breckinridge, Belgrade.

**JAMES P. WARD.**

**JAMES P. WARD,**

Candidate for Representative, Says:

A State Legislature should be made up of men representing every interest; that in order to solve after-the-war problems, we must elect to our legislative bodies not only lawyers, who interpret our laws, but also practical railroad men—engine drivers and trainmen, practical bankers, men representative of salaried employees, and of the farmers. In other words, workers should represent workers, and men of business should represent business; yet along with these, we must always have a certain representation of well-trained, clear-thinking men of the legal profession.

This is not a new proposition, however, and the preponderance of lawyers in legislative bodies has more than once suggested that the complaint regarding too many lawyers might be due to the fact that we have too many lawyers engaged in the business of making laws and then making a livelihood out of them.

The problems we must meet after the war should be considered in advance. Our depleted resources must be put in running order, and it can be done only by men representative of the various interests involved.
